Address: Ethiopia - Addis Ababa

Professional Summary

ISTQB-certified Software QA Engineer with 3+ years of experience testing large-scale ERP systems deployed across 15+ cities. Skilled in **test case design**, **end-to-end and regression testing**, and structured **defect tracking** in Jira. Experienced training end-users and producing clear documentation to support successful software adoption.

Skills

Testing

End-to-End Testing, Regression Testing, Usability Testing, Mobile App Testing, UAT Coordination

Tools

Jira, Fresh Desk, Cypress (self-study), Selenium (self-study)

Test Design

Test Case Design & Execution, Test Planning & Strategy, Test Reporting & Analysis

Other

Requirements Analysis, Defect Lifecycle Management, User Training, Documentation

Work Experience

QA Engineer – Top Link Technology - Ethiopia Addis Ababa

WUMIS (Water Utility Management Information System) · June 2023 - January 2026

- Provided QA and support for an ERP system built for the Ministry of Water and Energy, deployed across **15+ cities**, covering HR, customer service, billing, and finance modules.
- Analyzed business requirements by working closely with project managers, product owners, and stakeholders to understand system workflows.
- Designed and executed **test cases and test scenarios** based on system requirements to ensure application reliability and performance.
- Identified, documented, and tracked bugs through structured **bug reports**, improving system quality before deployment.
- Provided **user training sessions** both on-site and remotely, and prepared **user manuals, documentation, and video tutorials**.
- Delivered ongoing **technical support and system monitoring**, helping teams resolve issues and maintain daily operations.

Projects

WUMIS ERP Test Coverage

- Built and maintained test case libraries spanning HR, customer service, billing, and asset management modules for a multi-city ERP rollout.

User Enablement Program

- Delivered on-site and remote training sessions plus written/video documentation supporting adoption across 15+ city deployments.

Education

Bachelor of Science, Software Engineering – Bahir Dar University - Ethiopia - November 2018 - August 2022

- Coursework: system architecture, software design, and engineering fundamentals

Certifications

ISTQB Foundations of Software Testing · Git Fundamentals · Data Analysis Fundamentals
